Education

Gokaraju Lailavathi Engineering College

Computer Science And Engineering

August. 2024 – Present

Hyderabad, Telangana

Relevant Coursework

- Data Structures and Algorithm
- DBMS
- Artificial Intelligence
- Systems Programming
- Computer Architecture

Projects

Gym Reservation Bot | *Python, Selenium, Google Cloud Console*

November 2024

- Developed an automatic bot using Python and Google Cloud Console to register myself for a timeslot at my school gym.
- Implemented Selenium to create an instance of Chrome in order to interact with the correct elements of the web page.
- Created a Linux virtual machine to run on Google Cloud so that the program is able to run everyday from the cloud.
- Used Cron to schedule the program to execute automatically at 11 AM every morning so a reservation is made for me.

Ticket Price Calculator App | *Java, Android Studio*

August 2025

- Created an Android application using Java and Android Studio to calculate ticket prices for trips to museums in NYC.
- Processed user inputted information in the back-end of the app to return a subtotal price based on the tickets selected.
- Utilized the layout editor to create a UI for the application in order to allow different scenes to interact with each other.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Eclipse, Google Cloud Platform, Android Studio

Technologies/Frameworks: Linux, GitHub

Certifications

- CISCO -Python Essential
- AWS Certified Solutions Architect
- Simplilearn Education-Introduction to Generative AI Studio
- Forage-Skyscanner - Front-End Software Engineering Job Simulation
- GeeksforGeeks-MERN Full Stack Web Development

Experience

- * Developed small projects in C, Java, and Python, such as a Student Record System and Calculator.
data structures and algorithms in coding problems and assignments.
a mini web application using HTML, CSS, and JavaScript
