EDUCATION

Panipat Institute of Engineering and Technology 08/2022 – 07/2026
Bachelors of Technology (Computer Science and Engineering) Panipat, India

PROFESSIONAL EXPERIENCE

MapleCloudTechnologies 07/2025 – Present
Data Analyst Intern noida, India

MapleCloudTechnologies 01/2025 – 02/2025
Software Developer Intern Noida, India

SKILLS

Data Analysis

- Exploratory Data Analysis (EDA), Statistical Analysis

Programming

- Python, JavaScript (basic)

Tools & Tech

- HTML, CSS, Flutter

Testing

- JUnit

Data Visualization

- Matplotlib, Seaborn, Streamlit

Libraries/Frameworks

- Pandas, NumPy, Matplotlib, Seaborn, Streamlit, Tailwind CSS

Database

- SQL, MySQL

Soft Skills

- Leadership | Communication

PROJECTS

Water Quality Prediction

- Performed **data cleaning**, **EDA**, and **feature engineering** on water quality features (EC, TOC, THMs, etc.) on 1 lakh records daily.
- Built and evaluated ML models (Random Forest, Logistic Regression) using Scikit-learn, achieving over 85% accuracy.
- Deployed the predictive model to AWS EC2, enabling real-time access and supporting **data-driven decision making** in water safety.

Event Management System

- Created a full-stack platform for event planning, vendor coordination, and post-event analysis resulting in 40% **reduction** in manual scheduling efforts.
- Tech Stack: Spring Boot, Spring Security, JPA, REST APIs, Tailwind CSS, MySQL/PostgreSQL
- Implemented **role-based access control**, improving platform security by 70%.
- Achieved **95% test coverage** using JUnit.

HRMS – Human Resource Management System

- Developed and maintained a responsive HRMS application leading to a **60% reduction** in HR manual operations.
- Modules included: Authentication, Leave Tracking, Salary, Employee Profiles – automating **75% of routine HR tasks**.
- Processed employee data using **data cleaning** techniques to reduce input **errors by 60%**.

Company Website – MapleCloud Technologies

- Developed **responsive layouts** for homepage, services, and contact pages, enhancing **mobile usability** and **cross-device performance by 45%**.
- Improved **page load speed by 30%** through layout optimization and clean semantic HTML structure.
- Ensured **cross-browser compatibility** and **UI consistency**, reducing bounce rates by 30% and improving user retention by 25%.
- Collaborated with senior developers on **UI/UX design**, layout structuring, and **code optimization** improving deployment speed by 20%.

COURSES

Python & Machine Learning

Maplecloud Technologies

07/2025 – Present
Noida, India

- Built a **machine learning model** with over **85% accuracy** to predict **water potability** using features like **EC, TOC, THMs, Hardness**, and **Turbidity**.
- Utilized **Scikit-learn** for **data preprocessing**, **model training** (*Random Forest, Logistic Regression*), and **performance evaluation**.
- Deployed the model on AWS EC2, enabling **real-time predictions** and increasing **model accessibility by 100%**

HTML/CSS & Tailwind

MapleCloud Technologies

12/2024 – 02/2025
Noida, India

- Developed a **mobile-first HRMS application**, automating tasks like **attendance**, **leave management**, and **salary slip generation**.
- **Enhanced HR efficiency by 60%** and **reduced manual errors** through **API integrations** and a **responsive UI**.
- Designed **intuitive UI/UX screens** using **Tailwind CSS**, boosting **user engagement by 40%**.
- Collaborated on **company website development**, optimizing **layouts** and ensuring **cross-browser compatibility**.
